Why is NM promoting the Know Your Rights Campaign?

- To reaffirm commitment to best practice and decades of disability policy
- To support inclusion and integration of people with disabilities in the community
- To take steps supporting important federal policy such as the CMS HCBS Final Rule
- To invite advocates and stakeholders to take action and help with NM Statewide Transition Plan for compliance by 3/17/19

It’s the right thing to do!
How is the Know Your Rights Campaign linked to the CMS Final Rule: HCBS Settings Requirements?

The HCBS settings requirements enhance the definition of community based services and provide protections of RIGHTS.
What is the CMS Final Rule?

Provides impetus to move states HCBS systems closer to:

- the reality of person centered practices
- full inclusion
- integrations into the community

This rule is about human and civil rights for people.
What is the CMS Final Rule?

Settings that may ISOLATE-Not allowed

- Setting is designed specifically for people with disabilities, or certain people with a certain type of disability
- People in settings are people with disabilities or staff that provides services to them
- Little or no interaction with the broader community
What is the CMS Final Rule?

More than just a concept ...

Is there a choice of a roommate/housemate?

Are there protections against eviction even in a provider owned or controlled setting?

Is there support to request a roommate/housemate change?

Is it made clear that the individual is not required to adhere to a set schedule for waking, bathing, eating, exercising, activities, etc.?

Does an individual’s schedule vary from others in the same setting?

Does the individual have a private cell phone, computer or other personal communication device or have access to a telephone or other technology device to use for personal communication in private at any time?
What is the CMS Final Rule?

More than just a concept ...

Do individuals receive HCBS in an area of the setting that is fully integrated with individuals not receiving Medicaid HCBS?

Is the setting in the community/building located among other residential buildings, private businesses, retail businesses, restaurants, doctor’s offices, etc. that facilitates integration with the greater community?
